Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 1/27/04 was considered by the examiner. The IDS submitted on 7/22/04 was also considered but the reference was struck through because it was a duplicate of the IDS submitted on 1/27/04.

Allowable Subject Matter

2. Claims 29-49, 51-57, 59, and 61 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to suggest the claimed battery powerable apparatus, radio frequency communication device, and electric circuit, particularly having a conductive adhesive comprising an epoxy terminated silane attached to a battery or nickel surface. As noted in the response and declaration filed on 7/22/04 a comparison of the electrical conductivity of the claimed conductive epoxy adhesive with silane additives bonded to a nickel surface or a battery with the conductive epoxy adhesive of the prior art (without silane) bonded to a nickel surface or a battery demonstrates the unexpectedly higher conductivity with the epoxy terminated silane. This showing of unexpected results is considered sufficient in accordance with MPEP Section 716.01 to overcome the 103(a) rejections of the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
